DETAILED ACTION

Reasons for Allowance

1. Claim 6 is canceled.
2. Claims 1-5 and 7-19 are allowed.
3. This is examiner's statement of reasons for allowance.

Regarding claims 1-5, 7 and 11-19, the prior art, either singularly or in combination, does not teach or suggest a multifunction device, comprising:

“...a control panel including a media card indicator that illuminates when a media card has been inserted into the media slot, wherein pressing of the media card indicator places the control panel in a mode to download and print data from the media card.”

Regarding claim 8, the prior art, either singularly or in combination, does not teach or suggest a multifunction device, comprising:

“...a control panel including a media card indicator that illuminates when a media card has been inserted into the media slot, wherein the media card indicator and the media slot are on different planes; wherein multifunction device can perform at least one of a copy function, a fax function or a scan function, at least one of the copy function, the fax function or the scan function includes an indicator, and the control panel is in a mode to download data from the media card when the indicator is off.”

Regarding claim 9, the prior art, either singularly or in combination, does not teach or suggest a multifunction device, comprising:

“...a control panel including a media card indicator that illuminates when a media card has been inserted into the media slot, wherein the media card indicator and the media slot are on different planes; wherein the multifunction device can perform a copy function, a fax function and a scan function, the control panel includes a copy function key that initiates the copy function, a fax function key that initiates the fax function and a scan function key that initiates the scan function, with a function key associated with a least used function placed between two function keys.”

Regarding claim 10, the prior art, either singularly or in combination, does not teach or suggest a multifunction device, comprising:

“...a control panel including a media card indicator that illuminates when a media card has been inserted into the media slot, wherein the media card indicator and the media slot are on different planes; wherein the multifunction device can perform a copy function, a fax function and a scan function, the control panel includes a copy function key that illuminates during the copy function, a fax function key that illuminates during the fax function and a scan function key that illuminates during the scan function, with the copy function key, the fax function key and the scan function key turned off when the media card indicator is pressed.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
